HOSPITAL-LEVEL THERAPY NOW AVAILABLE AT HOME

Your doctor has probably talked with you about the importance of airway clearance therapy for maintaining your health and minimizing hospitalizations.

That's the idea behind The Volara™ System. The Volara System uses Oscillation and Lung Expansion (OLE) technology, which is highly effective for airway clearance, but was never before available outside of hospital settings.

Now, with The Volara System, you can benefit from OLE therapy at home.

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care. **Learn more at respiratorycare.hill-rom.com**.

The Volara™ System OLE Therapy

BREATHE EASY.

3 PROVEN THERAPIES[1] 1 VERSATILE DEVICE

The Volara™ System combines three key therapies in a single device. These therapies work together to expand your lungs, mobilizing mucus from your airways.

- **CPEP**
  Continuous Positive Expiratory Pressure expands the lungs and holds them open.
- **CHFO**
  Continuous High Frequency Oscillation loosens and moves mucus from the small airways to the large airways.
- **NEBULIZER**
  Delivers medication that helps loosen mucus.

Your doctor will determine what treatment cycle is best for you. Then The Volara System can be programmed, so it's easy to do your therapy exactly as prescribed.

PERSONALIZED PRESETS
The Volara System will be preset by your medical team, for therapy precisely tailored for you.

PORTABLE AND LIGHTWEIGHT
The Volara System is light and battery operated, so it can be used throughout the home and beyond.

INTUITIVE INTERFACE
The Volara System interface is designed for ease of use.

WORKS FOR YOU
The Volara System can be used with a mouthpiece, face mask, tracheostomy or in-line on a ventilator.

HILLROM IS HERE FOR YOU.

Your health is our top priority. So we do everything possible to make sure you're getting the therapy you need, feel comfortable using it, and can get answers to questions whenever they come up.
